

## TRACK MONO MINIMAIN

Rail électrifié en aluminium extrudé.  
 Conducteurs en cuivre  $\varnothing$  4 mm<sup>2</sup>.  
 Peinture époxy.  
 Tension secteur 230/250V.  
 Le raccordement au monophasé autorise une intensité totale de 16A, qui correspond à 3680VA.  
 Le rail peut supporter une charge de 4Kg / 1000mm, pour une charge de 7Kg, la distance entre les fixations doit être ramenée à 500mm.
